LAS VEGAS, NEVADA

Mirror Chrome That Turns Heads

Custom Spectra Chrome painting for motorcycles, cars, parts, and buildings.

“If you can paint it, we can make it chrome.”

What InVision Does

- **Motorcycles & cars** - full mirror-chrome Spectra Chrome finishes
- **Helmets, rims, engine parts & antiques** - small pieces, big shine
- **Homes & businesses** - chrome highlights plus LED lighting

Flip through the next pages. First, two before-and-afters - a car, then a building - so you can see the difference chrome makes. After that, a page on rails and the outside, and a whole page of other things we can chrome.

Cars & Motorcycles: Dull to Mirror Chrome

An old, beat-up car with faded paint on the left. The same car on the right, finished in bright mirror chrome. That is the change Spectra Chrome painting makes.

Before - dull and faded. After - bright mirror chrome. Same car, completely transformed.

Please note: This is a concept illustration showing what InVision work could look like. It is NOT a photo of a completed InVision job.

Bikes & Cars

- Custom motorcycles and Harleys
- Cars, trucks, and show vehicles
- Full finishes and accent pieces
- Tinted chrome options - ask Billy

Parts & Pieces

- Helmets
- Rims and wheels
- Engine parts
- Antiques and one-of-a-kind pieces

Bring in the whole bike or car, or just the piece you want to stand out. If you are not sure it can be chromed, call and ask - that call is free.

Buildings: Chrome Highlights + LED Lights

A run-down building on the left - shabby and unlit. The same building on the right, lifted with chrome trim and LED lighting so it stands out day and night.

Before - old, shabby, unlit. After - chrome trim and LED lighting upgrade. Chrome is used on the railings, trim, and highlights only - the whole building is not chromed.

Please note: This is a concept illustration showing what InVision work could look like. It is NOT a photo of a completed InVision job.

For Property Owners, Shops & Businesses

- **Chrome highlights** - railings, trim, frames, entrances, and details
- **LED lighting** - outlines and accents that make the building glow at night
- **Commercial & residential** - apartments, offices, storefronts, and homes

A building that shines gets noticed - before anyone walks in.

billy@invisionchromelv.com | www.invisionchromelv.com

Tell Billy what you want chromed - a bike, a car, a part, or a building - and he will walk you through the next step.

Rails & The Outside: Chrome Out Front

The outside is the first thing people see. Chrome rails, gates, trim, and highlights make a home or business look sharp before anyone steps inside.

Balcony & Stair Railings - apartments & homes

Fences, Gates & Handrails

Exterior Trim & Entrances - storefronts

Patio, Pool Rails & Outdoor Lights

Outside, it all counts: railings, handrails, fences, gates, window and door trim, entrances, signs, patio and pool rails, and outdoor light fixtures.

Please note: All four pictures on this page are concept illustrations showing what InVision work could look like. They are NOT photos of completed InVision jobs.

What Else Can We Chrome?

A lot more than cars and bikes. If a piece can be painted, it can usually be chromed - helmets, wheels, instruments, even furniture. Picture these in mirror chrome:

Helmets - motorcycle & sports

Rims & Wheels - cars, trucks & bikes

Guitars & Instruments

Furniture - chairs, tables & more

Please note: All four pictures on this page are concept illustrations showing what InVision work could look like. They are NOT photos of completed InVision jobs.

Almost Anything You Can Paint

“If you can paint it, we can make it chrome.”

Spectra Chrome goes over almost any paintable surface - **metal, wood, plastic, fiberglass, carbon fiber, glass, ceramic, and vinyl** - in classic mirror silver, or tinted to a color. So the list is long:

On the Road & Water

- Motorcycle tanks, fenders & frames
- Car & truck grilles, bumpers, trim & emblems
- Rims, engine parts & valve covers
- ATVs, UTVs & golf carts
- Bicycles & boat parts

At Home

- Furniture - chairs, tables, frames
- Lamps & light fixtures
- Faucets & bathroom fixtures
- Appliance fronts & handles
- Home decor & picture frames

Fun & One-of-a-Kind

- Guitars & other instruments
- Helmets of every kind
- Antiques & collectibles
- Trophies & awards
- Sculptures & art pieces

For Business

- Signs & storefront letters
- Display cases & store fixtures
- Railings, trim & entrances
- Trade-show & show pieces
- Anything with your name on it

Do not see your idea on this list? That does not mean no. Call Billy, tell him what it is, and he will tell you straight if it can be chromed.
